Newtown, Kolkata- 700160

**ORDER**

No: PBSSD/PJ/Portal/2019/1162

Date: 06-03-2019

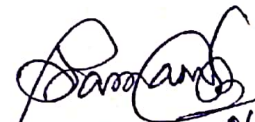

For inviting the fresh projects under project mode from the fresh applicants and existing applicants, will be accepted post keeping the following checks/balances in place for smooth training target workflow:

1. Fresh application from new training providers with new training centers
2. Existing training providers with new additional centers
3. Target Exhausted in existing centers of existing training providers:
  - Existing center may apply for additional target for the same module
  - Existing center may apply for additional target in different approved module
4. Training Partner may be allowed to change their training target **only once** on the basis of requests:
  - A check of current total project cost will be put in place then only amendment in training target can be done.
  - If the BG amount comes less on the basis of current project cost than the previous one. Then BG amount will stand same and no modification will be entertained.
5. Training partners will be given 3 months for submitting the BG, once the PSO & MoU is generated. If not submitted in 3 months, the training target will be deemed to 0 and no fresh allocation will be given.
6. Financial report of training target will be generated once in every 15 days.

Existing training providers would be given the target based on their previous performance under project mode. Afterward, same process will be followed for the newly empaneled training providers post commencement and completion of training. In a similar way, Phase IV will be implemented on a continuous basis and all projects will be accepted and validated based on the above mentioned criteria.

In order to maintain the business process inline, no fresh application will be entertained offline under project mode.

This has the approval from the appropriate authority.
